About Us *Hakkımızda*

The composite deck, which we obtain by recycling wood, which has been widely used in people's buildings since prehistoric times, and plastic, which takes centuries to dissolve in nature, forms the basis of the Deck-er brand.

Today, Decker is actively exporting to 25 countries thanks to its product quality and portfolio. In addition to the 18.000 square meter factory in Turkey, we also produce in our facility in Algeria, and thus, we have a say in the local and international markets. We work with great devotion at every stage of the production and marketing process and we are expanding our product range day by day.

With the DECKER brand, we produce decks, pergolas, prefabricated house profiles, fences and many other composite building materials that you can use outdoors such as parks, gardens, terraces, poolsides, consisting of composite flooring materials of wood and plastic. Answering the needs of many domestic and foreign companies in the sector, DECKER supplies all the products it manufactures to the world markets.

Tarih öncesi çağlardan beri insanların yapılarında yaygın olarak kullanılan ahşap ile doğada çözünmesi yüzyıllar alan plastiği geri dönüştürerek elde ettiğimiz kompozit deck, Deck-er markasının temelini oluşturmaktadır. Decker, ürün kalitesi ve portföyü sayesinde bugün 25 ülkeye aktif ihracat gerçekleştirmektedir.

Türkiye’de bulunan 18.000 metrekarelik fabrikanın yanı sıra Cezayir’deki tesisimizde de üretim yapmakta ve bu sayede yerel ve uluslararası pazarda söz sahibi olmaktayız. Üretim ve pazarlama sürecinin her aşamasında büyük bir özveriyle çalışmakta ve ürün yelpazemizi gün geçtikçe genişletmekteyiz.

DECKER markası ile ahşap ve plastiğin karışımı kompozit zemin döşeme malzemelerinden oluşan park, bahçe, teras, havuz kenarı gibi dış mekanlarda kullanabileceğiniz deck, pergole, prefabrik ev profilleri, çit ve bunun gibi pek çok kompozit yapı malzemesinin üretimini yapmaktayız. Sektördeki yerli ve yabancı birçok firmanın ihtiyaçlarına cevap veren DECKER, üretimini yaptığı tüm ürünleri dünya pazarlarına arz etmektedir.

What is Wood Composite? *Kompozit Nedir?*

Wood composite; it is an innovative product obtained by combining wood fibers and wood powder and polymer material with superior technology to bring high durability. While making you feel the warmth and natural appearance of wood, it offers the superior properties and advantages of plastic together.

It is environmentally friendly, does not contain harmful chemicals and is a recyclable material. With its ease of application, durability and stylish appearance, it is a product that is frequently preferred and is becoming increasingly common.

Composite Deck Features

- Environmentally friendly
- Longer lasting than wood
- Resistant to different climatic conditions
- Resistant to water and humidity
- Non-flammable and non-oxidizing
- It is anti-bacterial, does not mold and insect
- Does not slip and does not splinter
- Its application is practical and easy
- Paint and maintenance free

Ahşap kompozit; ağaç lifleri ve ahşap tozu ile polimer maddesinin üstün teknoloji ile birleştirilerek yüksek dayanıklılık getirilmesiyle elde edilmiş yenilikçi bir üründür. Ürünlerimizin ahşabın sıcaklığını ve doğal görünümünü hissettirirken plastiğin üstün özelliklerini ve avantajlarını bir arada sunar.

Çevreye duyarlıdır, zararlı kimyasal maddeler içermez ve geri dönüştürülebilir bir malzemedir. Uygulama kolaylığı, dayanıklılığı ve şık görünümüyle sıklıkla tercih edilen ve kullanımı gittikçe yaygınlaşan bir üründür.

Kompozit Deck Özellikleri

- Çevre dostudur
- Ahşaba göre daha uzun ömürlüdür
- Farklı iklim koşullarına karşı dayanıklıdır
- Suya ve neme karşı dayanıklıdır
- Alev almaz ve oksitlenmez
- Anti bakteriyeldir, küflenme ve böceklenme yapmaz
- Kaydırmaz ve kıymıklanma yapmaz
- Uygulaması pratik ve kolaydır
- Boya ve bakım gerektirmez

Deck Profiles Deck Profilleri

Deck Profiles Deck Profilleri

Decker, WPC (wood composite) flooring is made of composites whose hardness is several times higher than natural materials. While depicting the structure of wood faithfully, it has a much higher resistance to abrasion than it.

Decker floor products have an anti-slip surface and are not affected by water. It can be easily applied in gardens, poolsides, beaches, cafes and restaurants, walking paths, urban furniture, bridges and many ground applications.

Decker, which can be used in indoor and outdoor flooring, is natural and aesthetic. It can be used for many years without maintenance. It is suitable for all climates and is not affected by different weather conditions. Resistant to rot and insect attacks. It can be applied in desired designs and is easy to assemble.

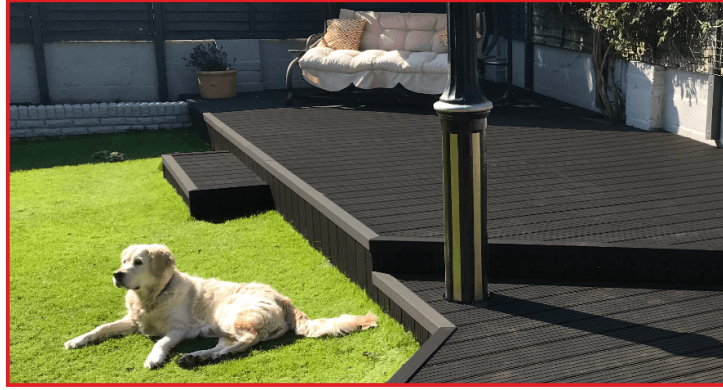

Decker, WPC (ahşap kompozit) zemin döşemeleri, sertliği doğal malzemelere göre birkaç kat daha yüksek olan kompozitlerden yapılmıştır. Ahşabın yapısını aslına uygun olarak tasvir ederken aşınmaya karşı ondan çok daha yüksek dirence sahiptir.

Decker zemin ürünleri kaymayı önleyici yüzeye sahiptir ve sudan etkilenmez. Bahçelerde, havuz kenarlarında, sahillerde, cafe ve restoranlarda, yürüyüş yolları, kent mobilyaları, köprülerde ve birçok zemin uygulamalarında rahatlıkla uygulanabilir.

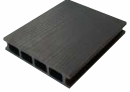

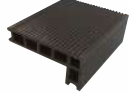

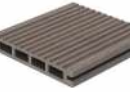

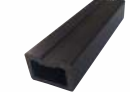

İç ve dış mekan zemin döşemelerinde kullanılabilen Decker, doğal ve estetikdir. Uzun yıllar bakım gerektirmeden kullanılabilir. Her iklime uygundur, farklı hava koşullarından etkilenmez. Çürümeye ve böcek saldırılarına karşı dayanıklıdır. İstenilen tasarımlarda uygulanabilir ve montajı kolaydır.

Pergola Pergola

Pergola Pergola

Decker pergola products make your spaces look sophisticated and modern. Using open spaces by protecting you from rain and sun while expanding your usage area offers the opportunity.

Decker pergola products are produced in 4 colors as anthracite, gray, hazelnut brown and cream with their simple and modern design.

Both to the environment and to people no harmful substances are used. Decker quality policy is to produce a product that complies with test norms for both domestic and industrial use.

Decker is natural and aesthetic. Decker products, which are made of WPC wood composite material, are suitable for all climates and different weather conditions without requiring additional maintenance every year. It is an innovative building material that is unaffected. Resistant to rot and insect attacks. It can be applied in desired designs and is easy to assemble.

Decker pergola ürünleri, mekanlarınızı sofistike ve modern görünüme kavuşturur. Kullanım alanınızı genişletirken yağmur ve güneşten koruyarak size açık alanları kullanma olanağı sunar.

Decker pergola ürünleri, sade ve modern tasarımıyla antrasit, gri ve fındık kahve olmak üzere 3 renkte üretilir.

Hem çevreye hem de insanlara zararlı hiçbir madde kullanılmamaktadır. Decker kalite politikası, hem ev hem de endüstriyel kullanım için test normlarına uygun bir ürün üretmektir.

Decker, doğal ve estetikdir. WPC ahşap kompozit malzemeden üretilen Decker ürünleri, her yıl ek bakım maliyeti gerektirmeden, her iklime uygun, farklı hava koşullarından etkilenmeyen yenilikçi yapı malzemesidir. Çürümeye ve böcek saldırılarına karşı dayanıklıdır. İstenilen tasarımlarda uygulanabilir ve montajı kolaydır.

Facade and Prefabricated *Cephe ve Prefabrik*

Facade and Prefabricated *Cephe ve Prefabrik*

With Decker wood composite (WPC) products, you can design a modern prefabricated house, cottage, exterior cladding, as well as a chalet, shack, or mobo cabin with exterior and wall panels. You can turn your dream building into reality with an innovative and modern design with Decker products made of environmentally friendly, recycled materials.

Decker facade profiles can be easily applied to private and public buildings, beaches, urban areas and mountainous areas with its durable structure against external factors. The matte finish and fine texture of Decker facade profiles provide the natural look of wood. It saves you money as it does not require coating and additional protection.

Decker ahşap kompozit (WPC) ürünleri dış cephe ve duvar panelleri ile modern prefabrik ev, kulübe, dış cephe giydirmesi, ayrıca dağ evi, kulübe, ya da mobo kabin tasarlayabilirsiniz. Hayalinizdeki yapıyı çevreye duyarlı, geri dönüştürülmüş malzemelerden imal edilmiş Decker ürünleri ile yenilikçi ve modern tasarımla gerçeğe dönüştürebilirsiniz.

Decker cephe profilleri dış etkenlere karşı dayanıklı yapısı ile özel ve kamu binalarına, sahilde, kentsel alanlara ve dağlık alanlara kolaylıkla uygulanabilir. Decker cephe profillerinin mat bir dokunuşla bitişi ve ince dokusu, ahşabın doğal görünümünü sağlar. Kaplama ve ek koruma gerektirmediği için paradan tasarruf etmenizi sağlar.

Kitkat Panel *Kitkat Panel*

Kitkat Panel *Kitkat Panel*

Kitkat panels are a type of building cladding that features a series of raised, parallel ridges or grooves on the surface. These panels are made from composite materials, and are used as a decorative and functional element on the interior exterior of a building.

One of the main benefits of Kitkat panels is their aesthetic appeal. The fluted pattern adds visual interest and texture to the surface of a building, creating a unique and eye-catching look. Kitkat panels are available in a variety of materials and finishes, allowing designers to choose the best option to suit the style and design of a building.

Kitkat panelleri, yüzeyinde bir dizi yükseltilmiş, paralel sırt veya oluk içeren bir bina kaplama türüdür. Bu paneller, kompozit malzemelerden üretilmekte olup, bir yapının iç-diş cephesinde dekoratif ve fonksiyonel bir eleman olarak kullanılmaktadır.

Kitkat panellerin ana faydalarından biri estetik çekicilikleridir. Yivli desen, bir binanın yüzeyine görsel ilgi ve doku ekleyerek benzersiz ve göz alıcı bir görünüm yaratır. Kitkat panelleri, tasarımcıların bir binanın tarzına ve tasarımına en uygun seçeneği seçmelerine olanak tanıyan çeşitli malzeme ve yüzeylerde mevcuttur.
